

VISTAMATIC® is a pioneering designer and manufacturer of privacy glass solutions used in hundreds of hospitals, medical facilities, high-security environments, corporations and universities across the world for over 40 years.

Our vision panels consist of three sheets of glass set as an insulated unit, operated by using VISTAMATIC'S propriety lever mechanism. When the lever is turned, the inner sheet of glass rises to enable observation and, by turning the handle back, vision is obscured. All panels are fully customizable and come with a lifetime warranty.

The Benefits of our vision panels:

- » Maintenance-free
- » Made in the USA
- » Mitigates spread of infection
- » Easily and cost-effectively installed
- » Customizable to unique needs
- » Modern and Stylish

Applications

Perfect for any environment where privacy and observation controls are required:

- » Healthcare
- » Education
- » High-Security Environments
- » Commercial

Privacy Glass Solutions
for Observation Control

www.vistamatic.com

VISTA-MAX™

With a large viewing aspect and full-length alternative lines, this is an ideal option for privacy control in doors and walls. Customized sizes (up to 40" x 40") are available.

SUPERMAX™

Designed for large openings exceeding 40" x 40" in doors and walls. With two uniquely operated vision panels sealed as a single unit, it brings an aesthetically beautiful design with dual-privacy controls.

VISTA-MAX™ NOTE

Combines the versatility of the VISTA-MAX and adds a note taking functionality to be used with dry erase markers.

MAX-XL®

Designed for long and narrow openings; a great option for full-length openings.

VISTA-SLIDE™ Designed for larger scale viewing, operates by moving side-to-side (vertical lines) rather than up and down; available in a variety of sizes for optimal exposure and privacy control.

VISTAPORT®

A unique design and functionality that serves to provide security observation control as well as a sleek and modern look. Measuring 15¾" it can fit in virtually any door or wall.

GLAZING/GLASS OPTIONS
